

WATER IN SPRING WATER QUALITY.

With UMH Pure, UMH provides an important addition for all osmosis and filtration systems. The filtered water is energized in a simple and effective manner. Through the 3/8" port, the UMH unit is suitable for all standard filter systems. The device is made of

brass, plated with 24-carat gold and has a pyramid-shaped polished rock crystal. The handmade borosilicate glass vials inside the unit provide a highly stable energy field.

RANGE OF USE

- Drinking Water Filters
- Reverse Osmosis Systems
- Aquariums
- Circulation pumps
- Water Ionizers

WARRANTY

- 5-year warranty on function and device technology
- 5-month money-back guarantee for unsatisfactory effectiveness

ADVANTAGES

- Elimination of a spectrum of pollutants
- Improving cellular water and nutrient absorption capacity
- Crystalline spring water structure
- Stable bioenergy
- Transfer of anabolic energy when drinking
- Noticeably softer and fresher taste
- No electricity, no chemicals, no magnets
- Maintenance-free

»The soul of man is like the water.
It comes from heaven, it returns to
heaven, and down again to earth it must go.«

J. W. v. Goethe

Customer Opinions ON UMH PURE

I want to thank you very much for giving me a real quality of life. I have been using your products for over two years now. You know that I strive to nourish myself as naturally as possible and, today, I can truly say that I feel very sure about the quality of my water. To this day, I am still very satisfied with my filter under the sink. I've enjoyed the „freshness“ of the water provided by the UMH device from the first day. Today I wouldn't want to drink any other water.

Installation example with Carbonit under-sink filter.

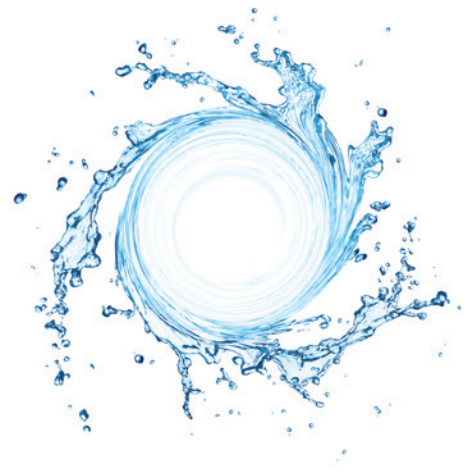

After moving into the Swabian Alps, we have, as you know, decided on the central filter system „Quadro“ because of the chlorine burden. Due to the additional UMH unit we now enjoy energized and noticeably softer water when showering and bathing. My fear that the water pressure would be adversely affected because of the filtering has not been confirmed. The investment has paid off again. For my business trips I always

fill a liter sized bottle with my water, I put my mobile terminal filtration under my arm and am fully powered, no matter how long I'm out. That to me is a real quality of life.

Michael Khouri, 2011

As I started preparing to deal with the subject of drinking water a few years ago, I came across many different solutions. I finally decided for a reverse osmosis system. After some enlightening discussions with Thomas Hartwig, I became aware that the complete demineralization of drinking water was not the ideal situation. Then I linked my system model with the UMH mineralization cartridge and then vitalized the water with the UMH Pure that I connected right under my faucet with two special adapters. Now the water is completely back in top order and doesn't taste so „empty“.

After about a year, I actually noticed that my metabolism had improved and my health recovery periods had shortened. After exhausting, long car rides or flights, after many hours of office work or after a few hours of sleep I was now recovered and fully fit again much more quickly. Since then, these and some other positive changes have not decreased at all. On the contrary, I have a bigger

impression that a higher mental capacity can be achieved through UMH water.

Because of that, I have paid conscious attention to my drinking water and thus also everything water consists of. Water relaxes me and gives me a quiet, clean life when I drink it. I can safely say that my physical and mental frame of mind have gained stamina and strength. I find the difference from before significantly higher. I am very happy and grateful for the excellent water quality, which I am allowed to enjoy every day.
